**VINIFICATION-MATURATION**

The grapes were vinified separately. Alcoholic fermentation (in stainless steel tanks; at 16 and 20°C) was followed by the blending.

The wine did not go through on malolactic fermentation in order to keep the natural acidity. We store the wine in the tanks in order to keep the natural carbon dioxide.

35% Welschriesling

**BOTTLED**

**TASTING NOTES**

Blend of Welsch- and Rhine Riesling, made reductive and marked by citrus zest with dry, vivid acidity. Although the two Rieslings are not related as vines, they create a harmonic blend with notes of lemon grass, green apple, gooseberry and green banana, finishing with typical Riesling tartness. It purely embodies the wine for "everyday drinking".
