

It is always nice to open the great guestbook of Vylyan, since we have a lot of returning guests who leave nice comments and lovely messages. It is pleasing to experience that Vylyan wines and the friendly hospitality attracts visitors back to our winery.

And there are other things that impress everyone – even us, the Vylyan crew, day by day – that are hard to describe, that you really have to experience: the Mediterranean style terrace, the chirping cicadae at the southern sunshine, the basking colourful Pannonian lizards, the vineyards surrounding the nature reserve of Fekete-hegy, the unique view of the devil-plowed hill (Szársomlyó), the Artistic Barrels, the campfire places under the trees...

This place reminds some people of the rolling landscape of Tuscany, or of their holidays, or for some it brings an “endoftheworld.com feeling”, in other words means the island of serenity. In sum, this is admittedly a magical place, which shows different vivid faces in every season.

To colour this up, we prepared new summer bites for our wine tastings. You can taste these delicious bites

and our wines on our terrace, but also feel free to picnic in the park! We provide you all the necessary props for the picnic, such as basket, food, wines, glasses, mat, blanket etc...

If you want to **relax**, all you have to do is to come to Fekete-hegy for a **glass of wine and for some summer bites**. Visit us!

„I am glad that today, at the age of 73, I experienced and felt what real WINE is. I wish this winery to develop and be successful for the joy of people.”
